HIGH POWER

Wonder Woman
Make yourself look bigger to give the impression of assertiveness

Tall & Proud
Hold your arms in a V-shape and lift your chin to make you feel powerful

Social psychologist Amy Cuddy delivered a TED Talk about how posture impacts how we feel about ourselves.

Her research shows that "high power" poses increase confidence, while "low power" poses perpetuate a weak sense of self

LOW POWER

Protective
Folding your arms or legs communicates need for protection

Closed & Guarded
Making yourself smaller communicates lack of confidence

TRY THIS:
Before entering a social or high-pressure situation, stick a "high power" pose for 2 minutes for a boost in confidence

Chapter 5: Capturing the Details with Sharp Focus

Focus is crucial in figure photography, ensuring that the subject's features and details are crystal clear. Master the fundamentals of manual and

autofocus, understanding the impact of aperture, shutter speed, and ISO on depth of field. Explore advanced focusing techniques, including focus stacking, to achieve unparalleled sharpness throughout the image.

The sharp focus on the model's eye draws the viewer's attention to the depth and emotion conveyed through the gaze.

Chapter 6: Enhancing Your Images in Post-Processing

Post-processing is an essential tool in figure photography, allowing you to refine and enhance your images. Learn the art of color correction, exposure adjustment, and retouching. Explore advanced techniques such as frequency separation and dodging and burning to elevate your images to a professional level.
